PANCAKES SUPREME - Mr. and Mrs. Frank Logarde and eight of their nine youngsters feast at Pancake Jamboree staged last Saturday morning at Jitney Jungle which attracted some 300 persons who went through the buffet line and ate on the parking lot in the Bay St. Louis version of the French Market. Pancakes, it so happens, are a favorite breakfast dish of the Logarde family.

Supervisors tap seawall, complain press 'hostile'

How to handle forest fires on 16th Section school lands, accusations that the Sea Coast Echo is a "hostile press" and pay increases for four seawall employees, plus creation of a new job, that of "mud jack man", occupied the board of supervisors in that order Monday.

Vote on the new job, authorized by H. G. Dean of Beat 1, was 4-1 with Board President R. G. Hubbard, Jr., dissenting on the grounds there is not enough money and the seawall employees "have been doing nothing but cutting grass" for the last year.

Appointed mud jack man was Robert Logarde after Dean said he understood the seawall had gotten in real bad shape.

The \$50 a month hike, also

moved by Dean, went to Melvin Logarde and C. W. Olsen, foremen, and C. E. Martin, foreman, on the seawall force.

The same hike for Arthur Rogers, assistant county engineer, was then proposed by Hubbard to compensate him for transporting road workers. Dean made the motion.

This action followed a rebuff by the board of its action last Monday during the secret meeting at which the press (in this case the Sea Coast Echo) was not present and charges of misquoting of threats ensuing therefrom.

It was a weird meeting for spectators this Monday and during the course of it Sheriff Gerald V. Price was forced to eject

verbally a spectator intent on telling off-color jokes to the supervisors.

The Echo was injected to the maelstrom when the board's attorney suggested commencing Rep. Clarence M. Logarde for securing speedy passage of a bill at the latest special session of the legislature which would create a county patrol to provide security for the NASA operation.

The attorney made note of the action being taken at "a Gestapo like session" by the board, it having been noted by the Echo last week that an executive session had been called by the supervisors on the matter.

Dean immediately interrupted the attorney's comments on the special bill to complain that deliberations the board were reported in the press and complained "the press is making mud out of four supervisors and putting you (Hubbard) on a pedestal. If the press can't be fair, he argued, they should be excluded from further meetings. Dean contended that the board's actions on the redistricting case were not reported as they actually took place (Editor's note: Naturally not, these took place at a secret meeting and the press was not present.) "It puts a reflection on the entire board."

Dean further objected to a threat attributed to L. M. Frier, son of Beat 2 that Beat 5 "would go along with the vote to intercede in the case. Rebuffing to clarify Frier's statement, he said Frier's son had understood "Logard (Thomas Logard, Hancock General Hospital administrator) was taking a big part in it and if he don't quit and run his hospital he isn't getting anything."

Hubbard retorted that the threat was there by intimation and asked "Why did I get angry and walk out..." After the board's attorney tried to put the record straight on who made what remarks, dismissing with the statement in the Echo attributed to "reliable sources" that the board called the vote, Hubbard said that was "when the (Frier) son said that."

HELD FOR GRAND JURY

William Gentry, former Paces Christian School resident, has waived preliminary hearing on narcotics possession and burglary charges involving a burglary at Faby Drug Store and has been released on \$5,000 for the September grand jury. Chief Deputy Sheriff Gerald V. Price, Jr., said this week.

Old paving feud finally settled

Waveland pushes water bonds

Waveland's long standing controversy with Gulf Paving Co. resulting from a \$28,400 paving contract back in 1958, which the town claimed was not performed according to specifications and withheld \$2,438.75 of the contract amount, was settled at Tuesday night's town council meeting. Waveland retains the withheld amount but released the bonding company.

On Dominick Sontier's motion, seconded by John Longo, the aldermen voted to advertise their intention to float a \$521,000 revenue bond issue, secured by the municipality's water system and its gas and gas transmission

system. Details of the transaction were worked out last week at a meeting between Mayor Gerald Logarde, Board Attorney Dean M. Russell, Jr., and representatives of M. A. Saunders Co., Memphis bond brokers, and Charles and Trautman, St. Louis bond attorneys.

From the new bond issue \$321,000 will be used to retire that amount of outstanding bonds on April 1, 1964, the earliest callable date, and the remaining \$200,000 will be used to improve the water system. Another bond matters, the mayor and board of aldermen approved for payment April 1 \$14,000 in bonds and

\$9,343.50 in interest coupons. Longo, who is also civil defense director, suggested consideration of the following as civil defense officers and the board approved: sheriff and ranger, Joe W. Griffith, warning and communication, Cornelius Herthly; transportation and property, Wallace Bourgeois; firefighting auxiliary, Kenneth Fayard; police auxiliary, Fred Bourgeois; and sea and water rescue, Duane Bourgeois.

Building permits totaling \$88,500 were approved as follows: Frank Voss, house in Pine Ridge Park subdivision; Henley Raymond, addition in Lader subdivision; John F. Anderson, Jr., addition in Chadwick subdivision; Catholic Society RLED, addition to church on Beach Blvd.; and Charles H. Johnson, house on Nicholson Ave.

About midway in the meeting a digressed and drunk Waveland objected to the location of three lights on Sears Avenue, which he threatened to chest out. After a disturbance lasting several minutes he left before the three deputy sheriffs arrived. Town Marshal Fred Bourgeois was not present. Council recessed from day to day.

Academic honors go to 3 from here

A son and a daughter of Mr. and Mrs. C. F. Gottschalk have received recent accolades for their academic achievements.

Karl, student at the University of Mississippi, received a letter from Chancellor J. D. Williams commending him for

making the honor roll last semester observing it was a time "that has had its difficulties and interruptions that a student less purposeful could have used for an excuse."

Pupils keep coming

Ask addition at Gulfview

The NASA connected population explosion already has hit six-room Gulfview Elementary School at Lakeshore, Principal Oren Seal and Beat 5 Trustees E. P. Orte told the county board of education Monday in urging immediate planning for further expansion.

Gulfview, which added two more classrooms in October, 1961, has increased in enrollment by 48 pupils since the end of the 61-62 session and by the time this session ends Seal figures it will be over the 200 mark. It closed last year with 123 pupils, opened last fall with 147 and now has 172.

Most of the newcomers are from Michoud families buying lots and building in the Lakeshore area, Orte explained. It is reported 25 new homes are under construction in Bayside subdivision alone.

"If we sit back and wait till we have 200 or 300 students in the school yard, there won't be time enough to get our heads together and come up with something," declared Seal.

He asked the board to consider an addition before this term ends, noting that enrollment should merit state aid for one more teacher next year and possibly two. At present Gulfview has six teachers, four provided by state monies and two from district (local) funds. State allocations are based on enrollment of the previous year.

The two room addition in 1961 was erected with district funds since attendance did not qualify the attendance center.

Gas spews on highway after crash

A 1954 Ford station was demolished and two other vehicles damaged when the Ford driven by Robert Sanford of New Orleans struck the rear of a Buick driven by Paul Fennell, Negro, stationed at Keesler Field at 6:20 p.m. Saturday at the intersection of U.S. 90 and Dunbar Avenue.

City Patrolman Latham Gariga said the Bay St. Louis fire department was called to the scene on 20 gallon cans of gasoline were thrown from the Sanford car and a small fire broke out in one of the vehicles.

A 1963 Dodge being towed by Sanford was damaged to the extent of about \$900, the Fennell's car suffered about \$500 in damages.

as it is designated by the state, for aid through the Mississippi Education Finance Commission. County Superintendent K. G. McCarty observed after Monday's meeting that the same might apply this time. The state requires an average of 30 pupils per teacher and in the case of an eight-grade school the county (Cont. on Page 7.)

90 land owners ask commercial zoning

Bay St. Louis planning commission at a special meeting Tuesday night heard from a group of property owners along U.S. 90 between the beach and Dunbar Avenue who objected to the proposed multiple family residential district classification presently assigned that strip.

The delegation contended the strip should be zoned for commercial use. The whole matter is expected to be aired at a public hearing later this month on the proposed zoning ordinance. Planning Chairman Fred Wagner observed afterwards one question resolves to whether Bay St. Louis was to preserve its beach as residential or enter the Biloxi and Miami Beach type of development.

Teacher appointments voted by school board

Thirty-four teachers in the Hancock County school system were re-elected for the 1963-64 session on the recommendation of their principals when the county board of education met Monday.

Vote was unanimous on a motion to Trustee E. P. Orte, seconded by Legis Necaise, after the list was given Necaise commended Hancock North Central Principal J. D. Penton for his administration of that school and expressed hope Penton would not let "political influences" enter his recommendations on the rest of that faculty. Necaise earlier objected to an ex-masse motion on approval of all appointments apparently in case he disagreed with some of those at HNC.

Penton noted four of those he was recommending were on condition they pursued at least 12 hours toward degrees this summer and said the parties involved had so agreed. He emphasized this work was not just to have their teaching licenses renewed. After reading the list,

Sverdrup and Parcel and Associates, Inc., of St. Louis, Mo., has been awarded a \$2,850,000 architect-engineering contract for design of the Saturn V lunar rocket test complex at Mississippi Test Operations.

Third Army Headquarters at Ft. McPherson, Ga., announced the contract made by the assistant Secretary of the Army for Logistics and awarded by the Mobile District Corps of Engineers.

The contract, which the corps will supervise for NASA's Marshall Space Flight Center, calls for design of four grand test positions and supporting facilities.

A dual position stand for testing the 7.5 million pound thrust S-IC booster and a test control center, two Saturn S-II second stage test stands with test control center; data acquisition and data handling center; a central control center to serve the entire area, and canals adjacent to the test stands back to the main canal system of the complex, handling docks for fuel and oxidizer, industrial water distribution, utilities, roadways and a fire extinguishing system.

The design is to be finished in one year and will be completed in increments so construction of facilities can begin prior to completion of design.

When completed MTO will be one of the vital ground facilities supporting Uncle Sam's lunar landing program. Rocket stages assembled at Michoud Operations and Seal Beach, Calif., will be ground tested here before being shipped to Cape Canaveral, Fla., for launching.

Meanwhile NASA has placed

de Laureal and Moses Co. of New Orleans has been given a \$107,750 architect-engineer contract to design a central heating plant and distribution system which is estimated to cost \$1.5 million while bids were opened by the Mobile District Corps of Engineers Tuesday for construction of an electrical sub-station on the site. Apparent low bidder was Westinghouse Electric Corp. of Mobile at \$264,156.

Eight of the 20 barges loaned to NASA for its space vehicle development program are to leave the Charleston, S.C., storage area soon for New Orleans, transported piggy-back style. They will be tied at Army facilities in New Orleans and used initially to haul materials to MTO. Later liquid hydrogen and oxygen tanks will be mounted on the 120-foot long sea-going barges for fueling, Saturn S-IC boosters for static firing.

The propellants will be loaded short distances from storage tanks to the Mississippi area. Each vessel will be capable of handling 93,000 gallons of liquid oxygen or 200,000 gallons of liquid hydrogen. After the tanks have been mounted the barges will be ported in the MTO inland waterway to be constructed.

What it was about

Now that Chancellor W. G. Hewes has made his interim ruling in the so-called "redistricting" case, we'll try to explain what it was all about.

Certainly no one present for the hearing last week could be expected to know what was involved after listening to the political diatribe of one local attorney who had failed to do his homework on time.

Actually it wasn't really a redistricting suit but we'll go along with that designation since if successful it would strongly encourage the Board of Supervisors to carry out their oath of office and correct the voting inequalities they, the defendants, the complainants and the judge say exist because of the present district (beat) boundaries.

In fact the suit merely asked that until the supervisors thus made good on their promise the vote of each elector in Hancock County would count the same rather than having many of them invidiously discriminated against sometimes by the margin of 15 to 1 or more. To accomplish this the defendant Election Commissions would be ordered to disregard present district boundaries except to determine the qualifications of the candidates and all of us electors would vote.

Anyhow while saying the situation was real bad the judge, perhaps confused by the smoke, told the complainants to seek help somewhere else so they are going to the Mississippi Supreme Court and maybe the federal courts but that might get Bobby in it.

For now, Seach!

Girl Scouts Our Readers Write

Editor, Sea Coast Echo:

This in reference to your editorial in the Feb. 28 issue concerning the sale of Girl Scout Cookies, which I feel, might hurt the sale of the cookies.

Could you tell me how long ago you bought home made cookies from Girl Scouts? As a mother of a Brownie and Girl Scout, this interests me very much as we have been buying Girl Scout Cookies for 10 years and have been selling them for eight years, and these have always been made by a company.

Could it be that you have the sale of homemade cookies confused with the cake sales that Girl Scout Troop #77 held last year to help defray expenses for their trip to Washington? True, all of these cakes, cookies, muffins, etc., were made by Girl Scouts and their mothers, but that was a one time affair, whereas the sale of Girl Scout cookies is annual and national, I'm sure that the leaders in our Girl Scout headquarters have studied the sales results in detail, and have decided that on a nationwide basis, it is more practical to have these cookies made by a firm specializing in cookie making.

Let me take this opportunity to thank you for your interest in Scouting and hope that we will continue to provide articles of interest for your paper.

Sincerely yours,
MRS. FRANK W. LAGARDE,
Bay St. Louis.

(EDITOR'S NOTE: In the 1930s, but the major points of the editorial were the greater work and contribution required of the women and their indoctrination in cooking, said with tongue in cheek.)

Editor, Sea Coast Echo:

"What a terribly cold winter we are having." That is what you local residents have been telling me, for the past two months. According to weather statistics, you are right.

TAKE MERIT TESTS

Stay-three students at St. Stanislaus College took the 1963 National Merit-Scholarship qualifying test Tuesday morning. Brother Flavin, principal, announced, scores will be reported before May 15.

By Gone Days

25 YEARS AGO
Feb. 24, 1938 - Miss Jane Jones and D. M. Russell, Jr., engaged over the sixth annual St. Louis Academy Carnival Ball last Friday night. This year's theme was based around Arctic.

19 YEARS AGO
Feb. 27, 1934 - Smiley Bowers, famous comic cowboy of the movie screen, will appear at the Garden Center, 112 S. Second St., at 8 p.m. next Thursday, March 14, at the Garden Center.

for the warmest winter that I have ever experienced. Having been born and raised in Maine, where the snow always piled up, and the thermometer often goes to 20 degrees below zero or more, a snowless winter like the one down here is a real pleasure.

No northeast blizzards! No drifts piling against the door so that you have to open another door or window to get out. No painful slips on the ice, no sleep to break down beautiful trees. No autos getting stuck in the snow. No below zero temperatures and gales to freeze you to the marrow. Well do I remember the cold early morning treks to the barn to milk the cow.

When we were kids, the more snow the better. We used to dig tunnels for many yards under the huge drifts, coast and sled down the steep hills, and when there was ice on the ponds we were out there skating, regardless of the cold. But after middle age, the winters cease to be fun. Shoveling becomes a chore, the ice is a hazard and the below zero winds pierce the warmest clothing.

So, my good Southern friends, be glad for your snowless winters and your never-to-zero and seldom-to-freezing temperatures. Even if your winters were really cold, they could seem considerably warmer to me, because of your warm Southern hospitality which I have found to be a fact.

KENNETH W. MOODY,
Bay St. Louis.

DIVORCE DECREE

Final divorce decree granted by Chancellor W. G. Hewes before adjourning the February term of Chancery Court last week was Verneice (Blay) Farve vs. Henry Joseph Farve.

Teen Times

There were quite a few sleepy-eyed students in public schools the day after Carnival—those at Bay High were especially unfortunate as the holiday fell right smack in the middle of six weeks tests. St. Joseph girls were allowed a little extra rest as they didn't have to report to classes until 10 a.m., and Stanislaus boys were allowed a full day to recuperate as they had no school until Tuesday.

Some spent Mardi Gras in the Crescent City but more apparently remained here to view the biggest and best parade yet. Jeanne Rutherford and Dickie Lader reigned regally and pretty court members managed to refrain from chattering as chill winds ruffled their formal. . . . dukes in satin outfits were luckier as they braved the elements from coverables.

Spectators were overwhelmed when Lydia Dillmore and Kathleen Jacobs led horseback riders in beautifully designed costumes of crimson and purple complete with capes and matching decorative covering for their mounts. So effective were their get-ups that the judges assumed them to be part of the school presentation and left them out when they voted—this situation was remedied with a special award.

Linda Manch was among those spending the big day in the Crescent City—she of course viewed parades with her boy friend from Algiers. Mary Lou Herlihy and Tunell Bucklund also watched Rex and others march as did J. P. Compton, Will Price, Kappy and Susan Clark, Kathleen McAuley, Linda Hamilton, and others too numerous to mention.

Ten members of the Catholic Youth Organization accompanied by Father Kelly departed from Danny Sauder's Old Spanish Trail home at 12:30 p.m. Sunday on sort of an exploratory hike. They walked out Kiln Road to Bayou La Croix bridge—those completing the 15 miles were Melva Lake, Jackie Kingston and Nancy Swords, although Ray and Steve Kidd and Chippy Henry were forced to return to church with Father Kelly for 5:30 mass so we'll assume they could have made the distance. Also runs were Donny Sauder, Leroy Lake, Allen Lang and Ann Gottschalk. About 25 to 30 CYO members are expected to gather at the corner of Washington Road and U. S. 90 for a similar jaunt at 9 a.m. Saturday and Father Kelly hopes weekly hikes will become a regular activity of the group.

Secret session...

(Cont. from Page 1.)

Assistant County Engineer Arthur Rogers was reported by Hubbard to have measured about 42 miles of improved county roads in the test site and buffer area of MTO. Hubbard concluded that over \$600,000 worth of roads were involved and suggested that Rogers make a breakdown of his findings for submission to NASA officials or Joe G. Wardlaw of the Corps of Engineers, Mobile division. It was then the secret session was voted.

son) got out of his seat. "There were rumblings about Henry Osoinach, long-time Bay resident who spearheaded an unsuccessful redistrict by petition move in the mid-50s and observation "another man was ruined here." Frierson said he last Monday mentioned both Dr. A. K. Martinovich and Logue, thereupon the attorney endeavored to advise the board on how it might combat a "hostile press," pointedly dictating his views slowly enough to permit accurate transcription by the reporter.

"The only way I know of to defend yourself against a hostile press is to have a recording machine at all proceedings and actions of the board and whenever injury is sustained to seek in the courts of law either by way of injunction or to seek monetary regress whenever damages if any may be sustained." He added that he had five recording machines in his home and would be glad to lend one to the board.

Hubbard said the "trouble" arose when he failed to go along with the vote to intervene in the redistricting suit but Dean maintained the "trouble" was not caused by natives "not by people born in this country but by outside agitators." "Who represented the three in the courtroom," he asked, "Glass (Povell) Glass, Jr., publisher of the Echo, he caused it." Told by Hubbard that Dr. Martinovich was a native of Hancock County, he added that Martinovich was not in the courtroom "or that other man (Wilbert L. Argus)."

Hubbard observed there were 4,500 signatures on a petition some years ago to redistrict and Dean retorted, "A lot of people don't know the score, they'll sign any petition you ask them to. . . ." adding that the Echo confuses the public.

Following Dean's argument that the press should be excluded from meetings of the board Frierson declared, "I don't see why we're bothered with a paper in here. . . they don't have it anywhere else." He argued that board action could be taken from the minutes.

At that stage the attorney for the board suggested returning to the matter under consideration, "that secret meeting allowing us to cooperate with the federal government. . ."

On the seawall employees' matter, Charles Lovingshouse of Beat 3 and James Nelsce of Beat 4 suggested waiting until the next meeting on hiring a mud jack man at \$275 a month but reluctantly went along with the plan as it remained on the floor.

On Finanne, district forestry law enforcement officer, and K. P. Burckfield of Wiggins, district forester, discussed at length the problem of fires on 16th Section land and finally was agreed that notice be mailed to all lessees, similar to that given in Forrest County, setting forth regulations and policies on burning. Danger of retaliatory measures was cited but the board went on record directing the foresters to impose fire suppression charges or other measures where it is found necessary.

MR. LINCOLN SIGNS A BILL

Among the least well known of our 16th President's deeds is his signing of the National Currency Act in 1863. Yet it is truly important.

The Act provided not only for a much-needed national currency but also for national banks, to make their place alongside the existing state-chartered banks.

Under this dual banking system, the role of commercial banks in the Nation's life has become increasingly greater.

1963 is the Centennial of the National Currency Act. Our bank is proud to join in the observance of this significant anniversary.

Pink ladies to buy unit for breathing

Purchase of a positive pressure machine to administer intermittent breathing in cases of respiratory failure was voted by the Hancock General Hospital auxiliary at its meeting Monday. It was demonstrated by Thomas O. Loggus, hospital administrator.

Mrs. Andrew Ramage, service chairman, spoke on the teenage volunteer program through which the auxiliary hopes to provide boys and girls, age 14 through 18 years, with an insight into medical careers as well as being of service to others. Mrs. J. E. Ervin, home economics teacher at Bay High School, planned to take a group with her to the auxiliary membership tea Wednesday.

Mrs. Ben Hille, president, announced the pink ladies would appear on the Biloxi tv station at 1 p.m. March 13 to discuss various aspects of hospital volunteer work. An auxiliary workshop is slated at 9 a.m. March 21 at the Elks Club in Pascagoula.

Mrs. Wallace Chevis said the sewing committee will meet on the fourth Thursday of each month in the future. Those interested may call her at HO7-7473.

HNC seniors present play on hillbilly yarn

The setting is the general store in Lone Mule, Tenn., and the cast includes Richard Cuevas, Howard Lee, Comeldia Deaux, Betty Stewart, Carolyn Ladner, Jimmy Smith, Elaine Holden, Gwendolyn Necaise, Betty Ladner, Kathleen Lee, Nela Gay Necaise, Janie Lou Ladner, Ann Wikstrom, Carol Lane Ladner, Laverna Jones, Gloria Ladner, Rea Lea Ladner, Richard Lee, Doyle Moore, Douglas Pippin, Ann Harrel, Lois Bounds, Jesse Lee, Milton Ladner, Jerry Cuevas and Tommy Cuevas.

Producers are Mrs. G. S. Kennedy, Jr., and Guy Grosen while Richard Lee is the student director. Ushers will be Roddie Bilbo, Lionel Hoda, Herman Ray Necaise and John Necaise.

Sideline cage tourney opens Monday night

Play gets under way Monday at St. Stanislaus College gym in the third annual independent basketball tourney sponsored by the Sidelines Club. Games are scheduled at 7 and 8:15 p.m. through Thursday with three games Friday and finals Saturday night. Entry list to date includes the men's defending champion Plummer Realty outfit, Bob's Grocery, Friendship House, Golden's Grocery, Biloxi Independents, Bay Ice-VFW (Gulfport), Trapani, Logtown, Slidell, Kila Annunciation, Picayune, Weinacker's of Mobile, V and M, of Pass Christian and Hancock County of Kila.

In the women's division are Picayune, defending champions; Hattiesburg, 7-Up, Moran's, Pass Christian and Weinacker's. Pairings were not complete at press time.

Mrs. Rose Redo

Mrs. Rose Trill Redo, 77, mother of John W. Redo of Bay St. Louis, died Sunday night at Hancock General Hospital. She is also survived by one brother and six nieces.

The body was sent from Riemann's Funeral Home to Murphyboro, Ill. Burial was in Dillinger Cemetery, Carbondale, Ill.

Funeral services were Sunday from Riemann's Funeral Home with religious rites at St. John's Catholic Church, Lakeshore and burial in Lakeshore Cemetery.

Pallbearers were Bobby Boudin, Tommy McCordle, Leonard Moran, Leonard Ladner, Edison Chesest and Lloyd Bourgeois. Fred Curet, Eddie Lacost, Charles Thomas and R. G. Hubbard, Jr., were honorary pallbearers.

After being so completely fouled up by friend (?) groundhog on his day, we hesitate to really worry too much about the fact that March put in a definitely lamb-like appearance. Especially as we heard the honking of the first wild geese of the season winging their way northward bright and early that very morning and hereafter, the geese have been more accurate than even Nash!

Although there won't be nearly as many camellias and azaleas for pilgrimaging guests to admire... the landscape won't be as devoid of color as we had at first feared. Many brave gardeners have purchased plants and some should be in bloom in the next few weeks. Narcissus, tulips and other bulb plants are unaffected by cold weather and we've noted growing numbers of tulip fanciers in our area... also, plum and pear trees are beginning to bud—and those beautiful red leaf trees (never can think of the name) will add a dash of scarlet red to the scenery—all of this in addition to beautification of the business district under the capable chairmanship of Mrs. Ruth Woods Luderbach should present enough of a show to keep any coast visitors from leaving our area disappointed.

On the clean up front

In keeping with commenting on improvements in appearance of local business firms we'll take a bow for the Echo—we boast a brand new white clam-shelled parking area and newly planted grass is beginning to appear on the front lawn... we might add, this will thrive more rapidly if everyone will refrain from parking on portions of same. We'll also mention attractive displays in up-town department store windows and the lovely picket fence donated and installed by Jaycees and Rotarians transforms a former eye-sore between de Mott's and Tom Bressler's into an attractive addition to the Beach front. The young men working on this project so diligently asked to go unnamed as they worked for the good of the community, not personal glory.

More about Mardi Gras

As last week's column had to be completed before Mardi Gras we have much news of activities of the day before Lent. Think we can safely state that the largest crowd yet viewed the most beautiful array of floats to date. Everything went off without a hitch although numerous little sidelights kept bystanders constantly amused. One gentleman riding a bull dismounted to give the beast a little rest—and when he attempted to resume his seat, the bull shifted position and the rider ended up on the other side of him—flat on the pavement. "Gober" Goodwin's red tongued flopping shoes and tiny dachshund were another colorful addition to the parade. Grace and Sam Boudages appeared to have stepped directly out of "Lil Abner" in their mountaineer outfits. Herb Peterson was accompanied by his pet steer who has apparently recovered from an illness—the steer, not Herb. Gesina and Armand Serpas and a group of eight other adults and 11 children all costumed as they had been the previous Sunday when they participated in the Krewe of Zeus parade in Metairie climbed in Harold Toca's boat brightly decorated for the occasion and joined the local festivity. They were armed with a large number of throws and made quite a hit with spectators. In addition to Gesina, Armand and the little Serpases, the crew included Olga Neyrey and son Gas, Marion and Larry Osey and children, Patty and Billy Seals and children, Pauline and Harold Toca and Kathy Dooey. They had so much fun they plan to invite a larger number for a repeat performance next year.

More flu victims

Sorry to hear that Dr. and Mrs. James Robert both returned from their Florida vacation with severe cases of flu. However, we're told they were much improved Monday. Good news from Paul Henley—he says Thelma is well on the road to recovery after having undergone emergency surgery two weeks ago. Former residents, Carol and Jim Pfeiffer, who now live in Sidel, drove over Saturday to do a bit of landscaping on their Shoreline Park lots.

Lena Cavess and Beulah and Sidney Boudages were among those Mardi Gras-ing in the Crescent City. Beulah and Sidney joined the Lennie Rapps and report a wonderful time masqued as Indians as part of a large group on one of the many trucks in parades.

It's hard to believe but James Rohr actually consented to go to New Orleans for the big Sunday parade. He, Edith, Elsie and Tom Hayes and offspring lunched with the Rene Neelises then all proceeded to a vantage point to watch the floats go by.

Wavelander's niece to wed

The engagement of Miss Brenda Katherine Romaguera, niece of Mrs. Matthew Ballatin of Waveland, to Daniel L. Graham, Jr., son of Mr. and Mrs. Graham of Plant City, Fla., is announced by her parents, Mr. and Mrs. Frank Romaguera of New Orleans.

The marriage will be solemnized at St. Rose de Lima Church in New Orleans March 16. A reception at the Fontainbleau will follow.

Sam Blanchard, who is now at home recovering from surgery, celebrated his release from Touro by watching the poles run from the terrace of the Fairgrounds clubhouse last Monday. He was of course accompanied by Gerri, Jim Kathman, Helen and Will Boudages, Carmen and Dan Kirschenheuter and Ruth Hallatin.

Ruth and Matt moved into a home on Nicholson Avenue Saturday and Mamie and Max Glanelloni took possession of the Ballatin's former home on Terrace.

Jimmy Jung's pancake breakfast was a whopping success... the pancakes, sausage, margarine, syrup, juice and coffee were just as plentiful as they were delicious... a few spotted enjoying the gratis repast were Mrs. J. S. Dalley, Mrs. Eugene Davis, Carmelita Saudier, Mrs. John Hayward, Mary Lee Lagarde, Ed Green, etc., etc.

Jane and Bobby Benvenutti has as recent weekend guests Mr. and Mrs. Paul Schriber and children, Paul Allen, Paula and Pam of New Orleans.

A christening

Eleanor and Harold Boudages' first born, little Mary Kay, was christened at Lakeshore Methodist Church at 9 a.m. services Sunday. Rev. J. C. Rousseau officiated. Caroline Maurigi and Fred Dicks of New Orleans were sponsors. Rubie and John Boudages and the Harvey O'Farrells were beaming grandparents.

A very special happy birthday wish goes to Minnie Moreau who observed the day Tuesday, March 5.

dren are going to miss their uncle on his departure as he spends most of his time purchasing candy, ice cream and chewing gum for the little ones.

More get well wishes—Ruth Landry was sufficiently recovered from the flu to spend Carnival in New Orleans but is now suffering from a severe sore throat—Ida Boudages is nursing a badly sprained foot and skinned knee as the result of a fall last Saturday. Ida has just returned from New Orleans where she visited her son-in-law and daughter, Mr. and Mrs. Joseph Caro and son Brian who (Cont. on Page 11.)

Each New Home Means New Jobs

What makes it possible to build and enjoy a modern home miles from town? It's electric power! Can you imagine modern living without it? Because rural electric power is available, someone has decided to build. This decision means sales of everything from roofing nails to plumbing fixtures and floor coverings. These sales benefit local lumber yards, hardware stores, appliance dealers, and a host of other

merchants. Because rural electric power is there, the jobs are there. Local workmen get employment that otherwise would never come about. Adding up the score, we've found that new rural housing opens up more than 50 kinds of sales and jobs for local merchants and workmen. That's why we say Rural Electrification is good for all Americans.

Hawks tell '63 grid schedule

Hancock North Central's 1963 football slate recently announced includes 10 games, five on the Hawks' home field. Coach Ezell Lee's charges will play at least six conference games, and if Pearl River Central and Wiggins are added to the Gulf Coast loop as expected, the total will rise to eight.

Last season the Hawks snatched a four-year losing streak with a victory over Kern School of Pass Christian. Kern also is on the '63 grid calendar.

The complete schedule is as follows:

Sept. 6 - East Central, away; Sept. 13 - Ocean Springs, home; Sept. 20 - Wiggins, away; Sept. 27 - Bay High, home; Oct. 4 - Long Beach, away; Oct. 11 - Harrison Central, home; Oct. 18 - Pass Christian, home; Oct. 25 - Open; Nov. 1 - Kern, away; Nov. 8 - St. Martin, home; and Nov. 15 - Pearl River Central, away.

is slated to undergo major heart surgery March 22.

Willie Bourgeois sr. is under treatment for pneumonia in Hancock General, William Pittman is another ill victim.

Barbara (Mrs. A. E.) White and children Karen and Emmett left for Anahuac, Texas, Monday where they will remain for three weeks as Barbara's mother is to have an operation.

Anniversary

A very happy 40th anniversary wish goes to Hazel and Frank Chase who eloped abroad on Carnival Day which was Feb. 13, 1923. That is they crossed the river to Algiers (La.).

Our apologies to the fifth grade at North Bay Elementary school - third place Peppermint Twist float in the Carnival parade was their work of art, not the third grade at S. J. Ingram as we were misinformed.

The \$50 door prize to be given to someone attending the comic style how sponsored by Our Lady of the Gulf Parents Club should be an added incentive for everyone to attend: time 8 p.m., Sunday, March 17.

Eddie Marquez and Emmett Demoran have both been released from Hancock General and are recuperating from surgery at their respective homes.

Thelma and Eddie Jones, Mr. and Mrs. Chris Arnos and Mrs. Arnos' sister, Mrs. King, Mr. and Mrs. Charles Costello, Josie and Clarence Herbig, and the Ed Kreigers were among those spending last weekend in their summer homes.

Late again and we'll probably be in the doghouse with the ladies of Waveland Methodist Church... but we misplaced a batch of notes and they just turned up. This group asked us to express their appreciation to all who helped make their recent chicken dinner such a success. Well over \$200, was realized from this event and the much wanted organ grows closer and closer to becoming a reality. We're also to remind readers that the paper drive is still on and anyone wishing to have newspapers picked up need only call HO7-7156.

Complaint dept.
This time it's a new rash of woods fires mostly started by unattended trash fires. Waveland Volunteer Fire Department received three calls from widely separated areas Sunday afternoon alone. Fortunately no houses were in immediate danger. THIS TIME, but perhaps your home could burst into flames while the truck is extinguishing a brush blaze—just remember, if you must burn leaves and the like, please remain by the fire until notes one spark remains and try to select dump windless days for such projects, or better yet, use grass cuttings and dead leaves for a compost pile and leave other litter where it may be picked up by the town truck.

Doris and Cliff Vogt's second child and first daughter arrived safely at Baptist Hospital at 10 a.m. Sunday. She weighed an even six pounds. We'll have to wait until they return to their Lakeshore home to pass on the young lady's name.

Asian or YankeeNetto helps guard West German border

Something just as annoying but not quite as severe as either Asian or old fashioned flu is at present 'bugging' our area. A deep chest cough is one of the worst symptoms. Joe Griffin had it last week, our poor 'little' husband groaned all weekend—Mrs. Benedict Bourgeois is recuperating from an attack, Juliette (Mrs. Alvin) Ladner is minus 16 pounds as a result of that illness and accompanying complications and Fred Bourgeois was forced to take to his bed with the malady.

A turnout which was more than gratifying to say the least almost stunned sponsors of the spaghetti dinner at Clermont-Lakeshore Youth Center Sunday afternoon—Workers including Mrs. August Usher, Jean and Val Fusch, Beulah and Frank Peterson, Betty and Clyde Ladner, Gloria and Herb Peterson, Juliette Ladner, Grace and Helen Bordages, Elaine Davis, Eloise Hayes and numerous others were kept busy serving a horde of 'eager eaters'—among those were the Ed Orties, Marion and Russell Elliott, Joyce and Fritz Garcia, Florence Foegele and MacMcDaniel, Irene Graff and Charlotte Vogt, Sam, Wilfred and Ray Bordages, Mattie and Lloyd Garcia, Carmen and Dan Kirschenheuter, Margie and the little Lenfants, Mr. and Mrs. J. C. Goodloe, Pat and John Gohres, Tom Hayes, Edith and James Ruhr—all of which proves when good food is furnished for a good cause, a good healthy profit can be obtained.

Animal notes
We know the owner's face, and unfortunately not his name, but feel this should be mentioned so no one but your reporter will appear completely stupid and admire a tiny fawn colored 'greyhound'... the lovely, little animal frequently accompanying its master to the Waveland Post-office is a whippet—we really weren't all that dumb as this breed results from cross-breeding a greyhound and terrier—first popular in Italy, these canines attain a running speed of 35 mph and though they seldom bark (how heavenly), they make excellent watch dogs.

SIGHTS AND SOUNDS ALONG THE WAY - A couple of groups of picnickers on Jackson Ridge Sunday, obviously the first of the season, brilliant purplish pink sunsets reflecting in gently rippling water; more and more cars in from churches daily, another noticeable Lenten sign and the happy sound of voices as everyone revels in the out of doors after months of winter bound confinement.

Buddy Hava should be in line for some kind of special award for his yard beautification project—he has now distributed a ton or two of topsoil over his Nicholson Ave. lawn and he and brother Duke saved the lives of a number of rubber plants, elephant ears and similar large potted plants by endless trips in and out of the house with them between freezes.

Zelda Waltman is another—fruits of her planting the past two weekends are already noticeable at Kenwood.

SIGHTS AND SOUNDS ALONG THE WAY - A couple of groups of picnickers on Jackson Ridge Sunday, obviously the first of the season, brilliant purplish pink sunsets reflecting in gently rippling water; more and more cars in from churches daily, another noticeable Lenten sign and the happy sound of voices as everyone revels in the out of doors after months of winter bound confinement.

Plaudets due
Buddy Hava should be in line for some kind of special award for his yard beautification project—he has now distributed a ton or two of topsoil over his Nicholson Ave. lawn and he and brother Duke saved the lives of a number of rubber plants, elephant ears and similar large potted plants by endless trips in and out of the house with them between freezes.

Zelda Waltman is another—fruits of her planting the past two weekends are already noticeable at Kenwood.

Animal notes
We know the owner's face, and unfortunately not his name, but feel this should be mentioned so no one but your reporter will appear completely stupid and admire a tiny fawn colored 'greyhound'... the lovely, little animal frequently accompanying its master to the Waveland Post-office is a whippet—we really weren't all that dumb as this breed results from cross-breeding a greyhound and terrier—first popular in Italy, these canines attain a running speed of 35 mph and though they seldom bark (how heavenly), they make excellent watch dogs.

SUPER SPORTS—that's the only name for them! Four entirely different kinds of cars to choose from, including bucket-seat convertibles and coupes. And most every one can be matched with such sports-car type features* as 4-speed stick or Powerglide transmission, Positraction, tachometer, high performance engines, you name it. If you want your spide plus the luxuries of a full-sized family car, try the Chevrolet Impala SS. It's one of the smoothest road runners that ever teamed up with a pair of bucket seats. It even offers a new Comfortilt steering wheel* that positions right where you want it. The new Chevy II Nova SS has its own brand of excitement. Likewise the turbo-supercharged rear-engine Corvair Monza Spyder and the all-new Corvette Sting Rays. Just decide how sporty you want to get, then pick your equipment and power—up to 425 hp in the Chevrolet SS, including the popular Turbo-Fire 409* with 340 hp for smooth, responsive handling in city traffic.

Pictured from top to bottom: Corvette Sting Ray Convertible, Corvair Monza Spyder Convertible, Chevy II Nova SS Coupe, Chevrolet Impala SS Coupe. (Super Sport and Spyder equipment optional at extra cost.)
